

OUTDOOR LIVING Solutions

IGNITE YOUR SENSES

ignite your with

THE BACKYARD OASIS...

Imagine; the perfect evening with an outdoor fireplace glowing, the barbecue on, and friends in the pool or spa – what a great scene! Now it's all possible with Raypak outdoor living products.

Raypak are igniting the senses with its new backyard heating products that make outdoor living less of a challenge and more of an oasis.

The Raypak Majestic outdoor fireplace with full firebox openings, stainless steel construction and great looks will turn any deck, patio, outside bar, rooftop or terrace into a beautiful retreat.

The Al Fresco series tops its sector of the outdoor market offering flexibility of a gas or wood fireplace. The wood model could also be used indoors for that touch of classy comfort anywhere you want it.

This is a fireplace that will have them trekking in from miles away at your next pool party or barbecue. And it will give you ambience and romance throughout the evening long after the “end of the season”.
